CLEARONE DOCUMENT 802-000-013-PN
(REVISION 1.0) May 2009.

CLEARONE GREEN INITIATIVE WITH CONVERGE PRO PRODUCT LINE

Subject: ClearOne Green Initiative with Converge Pro Product Line

To: ClearOne Partners and Customers

ClearOne will be removing the printed Converge Pro Programming Manual from the shipping box in the future. This change is part of our company's Green Initiative to minimize paper waste. A soft copy of the manual is included on the product CD within the packaging.

A tree yields about 9,000 sheets of copy paper. Based on the sheet count of 200 sheets per manual, this represents a substantial number of trees that will not be harvested in 2010 with this new initiative in place. Nearly 4 billion trees worldwide are cut down each year for paper, representing about 35% of all harvested trees.

A printed manual will be made available for any customer or partner requesting one. A customer can simply order part number 800-151-880 from ClearOne Xpress™ or call ClearOne Customer Service at 1-800-283-5936. The manual will be provided at no cost.

Distribution partners may order the manuals in units of 17 if they desire to have local inventory for their dealers.

We would greatly appreciate everyone's support in our initiative to conserve our natural resources.

Thank you,

Zee Hakimoglu

President, CEO and Chairman of the Board
