

Police Headquarters

POLICE HEADQUARTERS - INDONESIA

INDONESIAN POLICE IMPROVE VIDEO COMMUNICATIONS USING CLEARONE

CHALLENGES

Working to replace the audio conferencing system in Police Headquarters across Indonesia, specialist video and audio systems integrator PT. Aliansi Sakti had to improve speech intelligibility in conference rooms in 32 locations. They also had to integrate with the existing video conferencing technology. Ensuring consistent quality and performance across each location was paramount. Each room, although similar in size, had its own unique acoustic challenges that required a uniform solution.

CLEARONE SOLUTION

The CONVERGE® Pro 880TA is a complete conferencing solution with a built-in 4 channel amplifier. Delivering comprehensive management features, its configuration tools are simple to use. It can be expanded for use in virtually any application. It's a complete conference system in one unit.

The project uses ClearOne's networked wireless microphone. These connect into the CONVERGE Pro; offering an economical, versatile and easy to use system.

EQUIPMENT LIST

Each 200m² meeting room included:

- » 1 x CONVERGE Pro 880TA
- » 1 x WS800 Wireless Receiver
- » 8 x Gooseneck Wireless Microphones

ABOUT CLEARONE

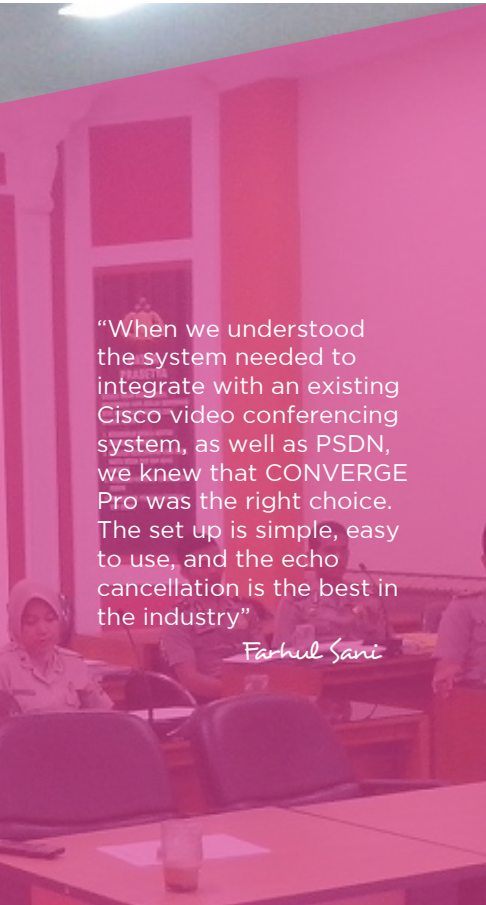

ClearOne is a global company that designs, develops and sells conferencing, collaboration, and network streaming & signage solutions for voice and visual communications.

The performance and simplicity of its advanced, comprehensive solutions offer unprecedented levels of functionality, reliability, and scalability. More information about the company can be found at www.clearone.com.

CHOOSING CLEARONE OVER OTHER VENDORS

ClearOne stood out for several reasons. It could seamlessly integrate with industry standard video conferencing technology and it was the easiest to set-up. CONVERGE Console® software provides an easy to use platform for configuration of microphones and echo cancellation. They were even able to copy and paste their ideal configuration into each processor, ensuring consistency across each location.

Connecting over a public switched data network (PSDN), Officers can dial in via a landline to important meetings over quality secure connections.

“When we understood the system needed to integrate with an existing Cisco video conferencing system, as well as PSDN, we knew that CONVERGE Pro was the right choice. The set up is simple, easy to use, and the echo cancellation is the best in the industry”

Farhul Sani

RESULTS AND BENEFITS

The upgraded video conferencing systems provide dependable and secure communications across the police government network.

Each system has three main uses:

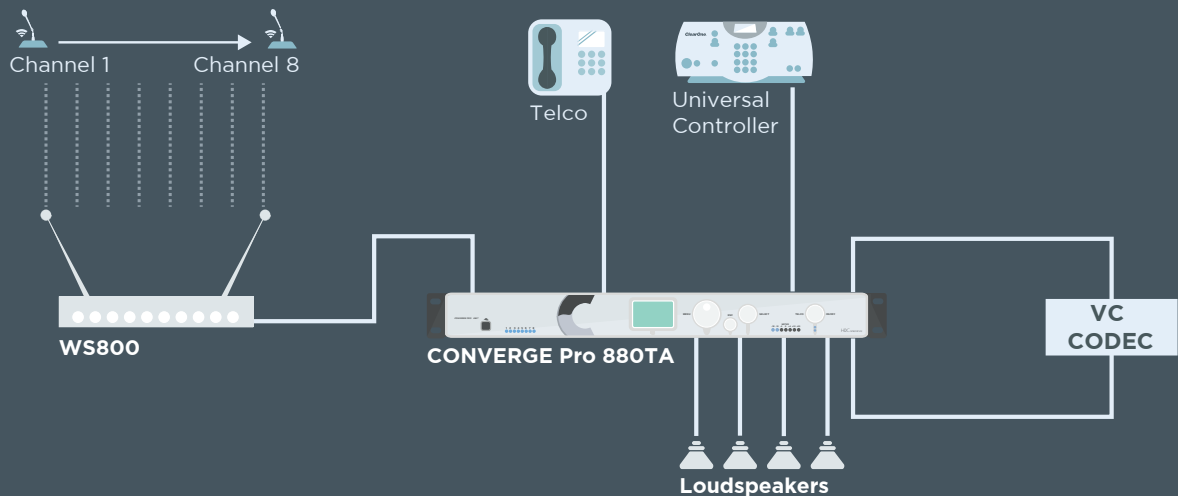

- » Online audio and video conferencing
- » Offline internal meeting sound reinforcement to improve intelligibility
- » Dial-in landlines and PSDN networks for conference members who are still out in the field.

The sound quality has been highly praised and maintenance is minimal.

ABOUT THE INTEGRATOR

Established in Jakarta in 1999, PT. Aliansi Sakti was one of the first System Integrators within Indonesia to provide consultancy and management of information systems & networking. Specialising in Video conferencing, PT Aliansi Sakti enhanced organisational productivity by providing quality products, services and support.
