

The USB Expander expands the USB Audio capability of a CONVERGE Pro 2 mixer by providing an additional USB audio interface with 2x2 channels.

This device enables users in different rooms to run UC applications in laptops for a professional quality audio experience using a simple, flexible USB connection.

The USB expander can be daisy-chained with other P-Link peripheral devices such as the Beamforming Mic Array 2, DIALOG 20 Receiver, and GPIO Expander. It can be used as a P-Link distance extender.
