

APPLICATION NOTE

Chat 50 & 150 (All Models)
Chat Software (Version 2.0.22)

CLEARONE DOCUMENT 800-156-200-01
(REVISION 1.0) February 2008.

WINDOWS VISTA (64-BIT) UNSIGNED CHAT DRIVERS

When installing the Chat software on Windows systems running any 64-bit version of Vista, Windows displays an Unsigned Driver warning dialog (shown below).

To proceed with the Chat software installation, select the **Install this driver software anyways** option in the warning dialog. The Chat software will function normally after installation is complete.
