What is the price of the INTERACT AT products?

Complete room solutions range from \$3000 to \$3950 (MSRP). Refer to pricing sheet for specific information.

When will it be available?

Product availability is schedule for early February.

Will the INTERACT AT product replace the RAV and Converge 560/590?

The INTERACT AT product is intended to eventually replace both RAV 600/900 and Converge 560/590 product lines. The transition period is expected to be a minimum of 1 year.

What key upgrades have been made compared to RAV 600/900 & Converge 560/590?

- The INTERACT AT mixer was designed to be used with either INTERACT MIC (microphone pod) or INTERACT MIC EX (Microphone Break Out Box).
- A new INTERACT COM device was developed to facilitate direct connections to a PC USB audio port or the headset port on enterprise telephone sets.

What are the part numbers for the INTERACT AT bundles?

Refer to pricing sheet for specific information.
