

... bring Skype into your conference room

## Bring it all together

Familiar unified communications and video conferencing applications make remote conferencing a breeze, but leave a lot to be desired when it comes to audio quality. With its built-in audio conference bridge, the The INTERACT AT-Skype allows audio conferencing between Skype, telephone, and H.323/SIP video conference participants at the same time. ClearOne legacy audio quality makes your communication as rich and natural as commercially-installed systems. HDConference® technology eliminates echo and background noise to provide crystal-clear audio and full duplex audio to prevent sound from cutting out.

Certified for Skype, the plug-and-play solution bundle moves your Skype calls from the desktop to the meeting room to experience a new level of communication.

# INTERACT® AT-Skype

Sounds  
good to me

## Key Differentiators

### MULTI-PURPOSE SOLUTION MAXIMIZES YOUR INVESTMENT

- + Video Conferencing - Compatibility with video codecs including, Cisco, Lifesize, Polycom Vidyo and others
- + Unified Communication -Certified for Skype; also works with other unified communication applications, including Avaya one-X® Communicator, IBM Sametime®, Microsoft Lync™ and others
- + Teleconferencing - Telephone interface supports standard PSTN analog telephone, as well as connection to popular enterprise phones including Avaya, Cisco, NEC and others

### HDCONFERENCE TECHNOLOGY DELIVERS LEGACY CLEARONE AUDIO QUALITY

- + Distributed Echo Cancellation® and automatic gating control offers a crystal-clear audio experience
- + Microphone array can daisy-chain to support up to 9 microphones with complete 360° coverage for large conference rooms with 12-16 participants

### BUILT-IN AUDIO CONFERENCE BRIDGING DELIVERS INTEROPERABILITY

- + Audio conference bridging allows communication between Skype, telephone and H.323/SIP video conference participants at the same time

### RECORDING AND PLAYBACK ENHANCES EFFICIENCY

- + Improve meeting productivity by recording the call
- + Play back recorded meetings on demand

### MULTIPLE CONTROL OPTIONS FOR EASE OF OPERATION

- + INTERACT dialer with intuitive interface emulates a familiar telephone keypad
- + Controllable via third-party room control systems, such as AMX or Crestron
- + PTZ camera control for voice-tracking delivers an interactive conference experience

### REMOTE ACCESS—ANYWHERE, ANYTIME

- + INTERACT software connects over the network, enabling remote configuration, control and monitoring

Great ideas need to be heard
