What the media is saying about…

ClearOne.   **Chat™ | 50**

Personal Conferencing - *and more*!

"ClearOne's Chat 50 seemed to have a slight edge when I walked to the other side of the room from where the device was connected to my computer…one friend said it sounded like I was in the room with him" – *Edward C. Baig*

"Anything with a headphone jack can be plugged into the versatile ClearOne Chat 50 USB Plus to give you an instant boom-box or a speakerphone" – *Eric Gwinn*

"ClearOne's Chat 50 can turn your computer into a high-quality speakerphone" – *Stephen H. Wildstrom*

"I use the Chat 50 most of the time for Skype calls, especially when I'm working with a client and want to keep both hands free…I recommend it highly if you prefer speakerphones over headsets or handsets" – *Bob Levitus a.k.a. Dr. Mac*

"If you travel frequently and spend hours in hotel rooms using your VoIP softphone, Skype, or even your cell phone, you'll definitely appreciate the ClearOne Chat 50 personal speakerphone" – *Oliver Kaven*

"This full-duplex USB-connected VoIP speakerphone is nothing short of awesome" – *Gary Berline*

"The Chat 50 is one of those all-around devices that demonstrate how today's crossover tech benefits gamers and non-gamers alike" -- *Dennis McCauley*

What the media is saying about…

ClearOne. Chat™ | 50

Personal Conferencing - *and more*!

"This speakerphone is perfect for VoIP users and those looking to get a boost out of their audio devices" *– Robert Summa*

"Not only can you plug in your iPod and have a nice rich sounding portable speaker, but of course it works well with your PDA and gives you a nice speakerphone – just lots of cool stuff" *– David Graveline*

"The Chat 50 is sl ightly bigger than a deck of cards and delivers rich sound and superb voice clarity wrapped up in a durable exoskeleton – all while keeping you headset free during those VoIP conversations" *– J.C. Schisler*

"ClearOne's Chat 50 is the first duplex device ever tested by CRN Test Center engineers that allows for simultaneous two-way communication rather than simply permitting one speaker at a time." *– CRN Review Team*

"The first speakerphone that allows Mac users to run Skype by voice command" *– Information Week*

"Conference Anywhere: The Chat 50 is a mobile audio peripheral that's slightly larger than a deck of cards…connects to a variety of devices and provides clear, hands-free audio communication." *– Shane Peterson*
