

DIGILINX™ Technical Bulletin

DigiLinX Compatibility with Third Party Software

NetStreams DigiLinX system interacts with third party software to function. In order to ensure compatibility and functionality from DigiLinX, follow the guidelines in the table below:

Table 1. DigiLinX Compatibility with Third Party Software

DigiLinX	Required Third Party Software	Version
Dealer Setup - PC Operating System	Microsoft® Windows®	XP with Service Pack 2, English version
User Interface - PC	Adobe® Flash®	9.0.28.0
PDA Operating System	Windows Mobile	5.0
User Interface - PDA	Adobe® Flash®	6.0

NOTE: At this time, like many software programs, the DigiLinX Dealer Setup program is not compatible with the new Microsoft Windows Vista® operating system. NetStreams is working on this issue and will make an announcement at a future date.
