About ClearOne

ClearOne is a global communications solutions company that develops and sells conferencing, collaboration, streaming media and connectivity systems for audio, video, and web applications. The reliability, flexibility and performance of the company's advanced comprehensive solutions enhance the quality of life through better communication, education and entertainment.

ClearOne delivers the ultimate IP A/V experience by distributing high definition audio and video over TCP/IP networks. ClearOne's products are designed for commercial and residential use, offer unprecedented levels of performance, functionality, simplicity, reliability and expandability. By combining audio/video content, meta-data and control signals into one stream, ClearOne's patented StreamNet™ solutions are a smart investment, enabling the Power of AV over IP™ – today.

ClearOne's StreamNet technology provides elegant solutions for streaming media & control applications such as digital signage, distribution of HD video and audio, LAN Cloud Matrix Switching™, and audio paging over data networks.

Casino Managers love StreamNet. Here's Why:

- 1 Casino projects can be immense and have massive distance requirements. StreamNet is the perfect solution since its Internet Protocol technology eliminates signal degradation inherent with RF and baseband products. In StreamNet systems, multiple streams of HD audio and video may run for thousands of feet — even miles — without loss. Best of all, StreamNet works peacefully over a facility's existing network infrastructure.
- 2 Casino systems have hundreds of endpoints, especially displays. Unlike traditional RF or baseband solutions, StreamNet allows nearly unlimited endpoints. In addition to this nearly limitless scalability, every StreamNet device can display different information while providing two-way interactivity, enabling customers to summon help — or order more food!
- 3 For projects which mandate mission-critical reliability and 24/7 uptime, StreamNet offers the best solution. Casino projects require maintenance and service efficiency. StreamNet is the only complete solution available with no single point of failure, allowing easy provisioning and remote management.

**Not Just Casino's** - StreamNet is designed to be the most robust, scalable, mission critical, audio, video, signage and control platform for small, medium or large sized facilities. As fitting as these solutions are to a casino, ClearOne's StreamNet solutions may be applied just as easily in hospitals, schools, hotels, stadiums, conference centers, transportation hubs, courthouses, worship facilities, shopping malls, restaurants and similar high-traffic environments. StreamNet solutions are also the best and most advanced system for any size residential project.

**Deliver the ultimate AV experience in your facility with StreamNet – the wisest choice.**

More than Bright Lights

ClearOne

OppDoc #6: Right Message, Right Place, Right Time

The gaming industry involves much more than just the bright lights and excited buzz of guests playing table games and slots. What distinguishes one casino from another? The games? The staff? The buffet? While these things vary slightly from one property to another, the implementation of technology and media in strategic, subtle, and profitable ways is what can really set a casino apart.

ClearOne StreamNet® and MagicBox solutions provide the flexibility and scalability to fit any application and provide

*...the implementation of technology and media in strategic, subtle, and profitable ways...*

the targeted, high-quality AV messaging casinos require to be successful.

■ Opportunity 1: On the Gaming Floor

StreamNet and MagicBox deliver scheduled and add-hoc information to targeted areas, and keep AV in perfect sync across any number of endpoints:

- + Guide players to their preferred games and tables
- + Show table game status
- + Display poker room waiting lists
- + Increase guest excitement with display of jackpot winnings
- + Stream HD audio and video to promote casino or even third-party amenities

With a flexible, easy to interface, the StreamNet system increases excitement and energy on the gaming floor which increases overall gaming revenue.

StreamNet VIEW Pro E120

■ Opportunity 2: For Conventions

MagicBox signage keeps patrons informed with scheduled and ad-hoc information:

- + Display convention and room schedules
- + Exhibit restaurant menus and daily specials
- + Display company or event logos throughout the hotel or casino area
- + Easily change up-to-the-minute information with centralized content creation

StreamNet solutions give you the power to organize all of your content in one system making it simple to update your messaging at a moment's notice.

StreamNet VIEW Pro D110

■ Opportunity 3: Concierge Areas

StreamNet brings relevant and topical information to your guests in an interesting and convenient manner:

- + Highlight property shows and events with full ticketing information and promotions
- + Display local weather forecasts
- + Showcase local tourist attractions

Engage customers further by mixing and matching sources, such as DVD, satellite or cable boxes, video cameras or computers, allowing virtually any audio video source to be used with a StreamNet solution.

StreamNet VIEW Pro E120

■ Opportunity 4: The Sports Book

StreamNet brings the excitement of live events in Ultra-HD across any number of displays:

- + Stream sports highlights and scores next to betting lines
- + Display live events throughout the casino, while keeping guests engaged with casino games
- + Pull content from multiple sources (Internet, satellite, local broadcasts, and more)

Separate your venue from your competitors by creating a unique and special experience for customers. StreamNet is flexible and puts the power of control in your hands.

StreamNet VIEW Pro D110

StreamNet Technology will Increase your Casino's Profit by:

- + Driving guests to multiple revenue generating activities within the casino and resort
- + Directing guests with floor maps & directories
- + Making current events, meeting information, emergency information, as well as safety and health messages easy to access

Did you know...

- StreamNet solutions will increase your casino's profit by attracting guests attention and guiding them to all the events and amenities available to them. The StreamNet system also eliminates the high cost of creating and distributing digital media, by being run and updated on any PC with a web browser.
