VIEW® Pro | PANORAMA™
## Video Composition/Video Wall License

PANORAMA software license for VIEW Pro Encoders and Decoders enable dynamic zone composition to be sent to multiple streams/zones, or allows multiple streams to be composed for a single display, including multi-display video walls.

Obtaining a one time license per unit provides for the most cost-effective use of your encoders and decoders.

Applications

+ Command and control displays
+ Video walls
+ Multi-imaging
+ Advanced digital signage
+ Sports multi-views
+ Distance learning
+ Classrooms

Features

+ Works with all licensed VIEW Pro Encoders and Decoders
+ Combine multiple source images for single display output
+ Combine different source types or formats into single display output
+ Maintain aspect ratio or crop image
+ Display portion of video for multi-displays or video wall applications

VIEW Pro Composition "Quad" configuration (1 display)

VIEW Pro 2x3 Video Wall Composition (6 displays)

VIEW Pro Composition "Six (5+1)" configuration (1 display)

VIEW Pro 2x2 Video Wall Composition (4 displays)
