

COLLABORATE® Live 900

COLLABORATE® Live solutions are the most versatile video collaboration room systems of their kind in the market. COLLABORATE Live 900 is a complete professional video collaboration system with optional state-of-the-art audio and video technology for mid-sized and large meeting rooms.

- > One CONVERGE Pro 2 DSP mixer, the industry's most advanced audio processor.
- > One patented Beamforming Microphone Array 2 with adaptive steering technology - think of it as a smart beam selection - for unsurpassed room audio coverage.
- > One UNITE® 200 PTZ HD camera with 1080p60, 12x optical zoom to capture all participants in the room.
- > User interface as intuitive and simple as familiar mobile or tablet devices.
- > Monitor, control, and audit Versa Pro CT with CONVERGENCE™ unified AV network management software
- > COLLABORATE Space is a powerful collaboration application with a full suite of audio, video, and meeting tools in a persistent space.

Intelligent Audio

The Beamforming Microphone Array 2 with adaptive steering technology — think of it as a smart beam selection — provides unsurpassed audio coverage and can be mounted under the display or on the ceiling.
