

NAME: ClearOne BMA 360 Camera Tracking Module

CATEGORY: Camera Tracking

VERSION: 1.1

SUMMARY: This module translates positional reporting from the ClearOne BMA 360 into PTZ Preset commands for the ClearOne Unite 200 or any VISCA compliant PTZ camera.

GENERAL NOTES: This module is for utilizing the BMA 360's Active Beam Report feature to assign and execute PTZ Presets on the Unite 200 via IP/Telnet and/or VISCA enabled cameras. Multiple instances of this module can be used in a single program slot. Each instance of the module can be assigned to a single BMA 360 and can address up to two cameras for control.
