A group of business professionals are gathered around a wooden conference table in a modern office setting. A man with a beard, wearing a light blue button-down shirt, is the central focus, looking towards a woman with curly hair and glasses on the left. Another person's hand is visible in the foreground, gesturing during the discussion. A laptop and several documents are on the table. The background shows large windows with a view of a city building.

# Network Media Streaming

Best-in-class VideoDSP™ products offer the highest-quality audio and video streaming and distribution over IP networks. These AVoIP® products—using patented StreamNet® technology—replace the hardware-based traditional matrix switchers and traditional video wall processors.

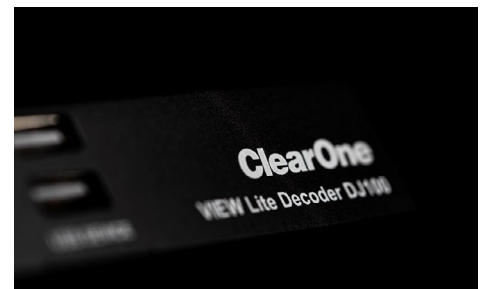

## VIEW Pro

Experience the ultimate 4:4:4 color space, H.264/H.265 codec based, highest-quality, low bandwidth multimedia streaming solution on an existing IP network — unmatched in scalability and ease of deployment.

## VIEW Pro Licenses

Powerful new features can be added to VIEW Pro via fast and easy software license purchases to ensure that one-time hardware investments are "future proof," and can be continuously upgraded as needed.

## VIEW Lite

VIEW Lite delivers the highest-quality, very low end-to-end latency AV streaming and distribution over a dedicated IP network based on JPEG2000 codec technology.
